Spray and Spray Now

Nothing pays a better return than Spraying your Fruit Trees. Now is the time to save the fruit, and a few dollars spent for spraying material will make the cost a trifle compared to the returns.

We have the goods and will tell you how to spray if you don't know. Potato Spray is a special mixture for potato bugs. Also London Purple, Paris Green and Arsenate of Lead in paste form. Don't let the potato bugs eat up your crops. Come in and talk it over.
